RAISED RELIEF MAP WITH PANORAMA EFFECT

Produced by TESTPLAY

Mountain peaks and highlands create natural shadowing, its height and slope ratio display proportions of mountain systems and relief dynamics, perceived both through visual and tactile channels

Designed by Raisa Gladushyna and Alexandr Gladushyn
Patent No. 2032230

TESTPLAY®

CE ISO 9001:2008 www.testplay.ru

SCALE horizontal:

1 : 7.380.000

0 100 200
KILOMETERS

0 100 200
STATUTE MILES

1 centimeter = 74 kilometers; 1 inch = 117 miles

SCALE vertical:

Smoothly changes
in parabolic relation
from 1 : 60 000
in lowlands
to 1 : 110 000
in highlands

MAP LEGEND

- BRUSSELS state capital
- BARCELONA more than 1.000.000 inhabitants
- LEPDS 500.000 - 1.000.000 inhabitants
- STRASBOURG 100.000 - 500.000 inhabitants
- VERSAILLES 50.000 - 100.000 inhabitants
- ROCHESTER less than 50.000 inhabitants

- Railroad
- Road
- International boundary
- Height marker, meters

- a) Permanent river
- b) Lake
- c) Intermittent river
- Swamp, salineland
- Sands

PANORAMA EFFECT DESIGN

Relief height	up to 85.0 mm
Viewing positions	12
Vision angle	up to 55°
Vision height	up to 1800 m
Calibration depth	up to 35 %
Number of calibrated sectors	58
Density of tactile marks disposition	
- in lowlands	up to 6 pc/cm ²
- in highlands	up to 14 pc/cm ²
Light-to-dark detalization radius of tactile marks	up to 3.0 mm
Focusing precision	± 0.2 %
GTIN 4820092270268	Made in Ukraine
